THE Hi!DEA

2026

BEYOND THE HI!DEA

At its heart, **Beyond the hi!dea** is a reminder that great work doesn't stop at inspiration. It goes further. This catalogue doesn't simply showcase products. It reveals what they can become when imagination meets precision. Every item is a starting point, ready to be transformed through customisation into something purposeful, memorable, and unmistakably yours. The motto subtly echoes our brand's evolution: from a focus on ideas to a more refined, structured approach that pairs creativity with reliability.

OUR PROMISE TO YOU: EMBRACING SUSTAINABILITY FOR A BRIGHTER FUTURE.

Sustainability is not just a concept, it is also our commitment to a promising and responsible future. We understand the importance of preserving our planet, supporting people, and promoting innovation in our activities. We believe that these three pillars—Business & Innovation, People, and Planet—are interconnected and essential for a prosperous future. Join us on this journey to make every action count, every choice conscious, and every day a step forward toward a world we can be proud of.

BUSINESS & INNOVATION

Develop reliable products to drive sustainable growth, powered by efficiency, innovation, and a conscientious supply chain.

PEOPLE

Foster a compassionate, diverse, and stimulating work environment for our employees, maintain strong and transparent relationships with our suppliers, and actively contribute to the development of an inclusive society in our community.

PLANET

Steering and supervising our operations by focusing on the efficient use of resources and minimizing our environmental footprint, promoting conscious consumption.

HOW DO WE MAKE OUR PRODUCTS ACCOUNTABLE?

People and Governance

Sedex Member

Quality, Environment, Health and Safety

Product collection focused on Sustainability

*Certified products are identified in the catalogue as FSC™.

EUDR

We demonstrate our commitment to protecting forests by respecting the guidelines of the EU Deforestation Regulation (EUDR)

Stricker is a participant in the United Nations Global Compact and is committed to the Ten Principles of the UN Global Compact and to contributing to the Sustainable Development Goals.

Together we can make a difference and the time is now.

Quality customisation services

DGL DIGITAL PRINTING

Digital printing involves printing paper, with photographic quality. This technique is widely used for labels or pins.

DOM DOMING

Doming consists of applying a clear resin (epoxy) on a printed slip. This layer of resin produces the effect of depth and protection and results in a 3D effect. The end result is shiny, resistant and durable.

DTG DIRECT TO GARMENT

Textile direct printing is a full colour digital printing technique, ideal for small quantities.

DUV DIGITAL UV

UV printing offers great advantages like speed and high quality guarantee. This technique is very appealing for printing in several colours. Ideal for small quantities and can be applied on plain or slightly curved surfaces.

EDB EMBROIDERY

The well-known embroidery technique allows customization on good quality fabrics with great quality and perfection. Embroidery replicates designs with a large variety of colours and distinct lines.

ETD 3D EMBROIDERY

A technique that allows you to personalise different types of fabric, achieve a high quality finish and achieve perfection with three-dimensional personalisation in relief.

FIR FIRING

Firing is a printing technique where special paints are applied using high temperatures to transfer the logo onto the product. It is ideal for glass, ceramic or porcelain. We have 2 options available: the low temperature, possible for logos up to 10 solid colours; and the high temperature option, that guarantees a longer durability and can be used for black and/or white.

HDG HYDROGLAZE

Hydroglaze is a technique that consists of spraying any pantone color, with a matt or glossy finish, onto glass, ceramic or porcelain.

HTS HOT STAMPING

Hot stamping consists of reproducing designs by means of a hot press on leather or imitation leather products. Furthermore, this technique allows transferring a metallic or pigment finish, adding color to the branding.

LAS CIRCULAR LASER

Laser engraving is a precise and long-lasting method. The laser beams engrave the design on hard surfaces. Besides metal, it can also be used on wood, leather/PU and glass with exquisite and elegant results.

LSR LASER

Use of a high-precision laser beam, allowing for low-relief engraving. This laser can be fibre optic, suitable for metals, or CO₂, suitable for wood and cork, or UV, suitable for glass.

PDP PAD PRINTING

Process used mainly for printing small objects like pens. It is very versatile and adapts to curvy shapes. It is the most economical solution for various products.

SCR SCREEN PRINTING

Screen printing is a printing technique which provides trustworthy and long-lasting results. This method can be used on smooth surfaces; printing in high definition even with more than one colour.

SND SANDBLASTING

Sandblasting creates a 3D effect with great detail. This technique is ideal for glass, ceramic or porcelain.

SRC CIRCULAR SCREEN PRINTING

Rotary screen printing is similar to the process of screen printing, but optimized for 360° printing. This process is indicated for pens.

STI STICKERS

Printing vinyl stickers with photographic quality and a wide variety of sizes and shapes.

SUB SUBLIMATION

Sublimation offers the advantage of being able to be used on concave surfaces, producing well-defined designs. It also results in a design highly resistant to extreme temperatures.

TRD DIGITAL TRANSFER

Transfer process optimised for digital printing of small quantities, without colour limits.

TRS TRANSFER

This method enables results on various types of fabrics and is very economic for multicolour printing on small quantities.

TXP TEXTILE SCREEN PRINTING

A method similar to silkscreen printing, however optimized to be used on textiles.

UVC CIRCULAR UV

Circular UV is identical to the UV process, but optimized for 360° printing.

infinitebook

Notes can be scanned

Infinitebook, founded in 2014 within a Portuguese high school classroom, emerged as a response to the limitations posed by traditional pencils, pens, and paper. The founders aimed to promote sustainability by creating a tool that significantly reduces paper usage in everyday tasks

How to erase the Infinitebook:

Mini Eraser

On the back of the Infinitebook's marker is an eraser like the one on whiteboards. It helps to erase minor spelling mistakes.

Damp Cloth

With an everyday cloth dampened with water and well wrung out, you can erase entire pages. This method works best on fresh ink.

Cleaning Kit

It includes a microfiber cloth, a sponge and an empty spray bottle that you must fill with water. It makes cleaning easy, even on old ink.

You are helping save:

93 420 000 litres of water

173 tons of paper

1 903 trees

1 Infinite Notebook = More than 100 Conventionals

Infinitebook Lined A5 33201

Recycled Cotton

Recycling of discarded cotton, whether in weaving, manufacturing or even post-consumption. Recycled cotton avoids additional textile waste and requires fewer resources than conventional cotton.

Enjoy the oldest european tea

Offering Gorreana is offering history with aroma.

Founded in 1883 and located in Azores, the Gorreana tea factory is the oldest in Europe. The same family has been managing the planting area of 45 hectares for about 5 generations.

Gorreana teas represent a union of taste, health and ecology. Gorreana teas have worldwide recognition and are ranked as some of the best and purest teas in the world.

TH Clothes® The brand

TH Clothes® was created in 2006. The objective was to invest and provide innovative products of certified quality, based on sophisticated designs, colour diversity and an efficient and sustainable use of the resources applied. The brand's main premise is customer satisfaction, without neglecting social responsibility and commitment to quality. All products are OEKO-TEX® certified, since they comply with all the criteria required by STANDARD 100 by OEKO-TEX®. This certification is extremely important, since it guarantees to both customers and users the product safety.
